

With over 600 specialist staff world-wide, Hamworthy Combustion's level of customer support is second to none. In the industrial sector we have a dedicated team of more than 100 specialists providing a total package of aftermarket service, ranging from a simple burner service visit to annual boilerhouse management with 24/7 remote monitoring.

### **Regional Service Offices**

Wherever your location, there is a Hamworthy Combustion regional service team ready to respond to your needs, each with dedicated management and full technical support. Each of our Service and Commissioning engineers have been fully trained at The Hamworthy Combustion Institute in Poole, Dorset.

### **Installation & Commissioning**

For optimum reliability and efficiency Hamworthy Combustion's Service Engineers will install and commission your new plant. All safety interlocks will be tested and demonstrated together with the necessary operator training.

### **Comprehensive Service Solutions**

Hamworthy Combustion can offer three levels of service for your boiler house (Classic, Premium and Optimum) ranging from basic 'burner only' servicing to full 'all-inclusive' boilerhouse management with 24/7 remote monitoring. The duration of a service contract can vary between one and ten years allowing you to accurately forecast your future boilerhouse maintenance costs.

Our services include:

- Combustion efficiency testing and emissions monitoring
- Routine burner servicing
- Boiler servicing & NDT inspections
- Energy saving surveys
- Technical advice
- 24/7 emergency support

## Upgrade & Retrofit

We specialise in the upgrade and refurbishment of existing burner and boiler equipment to bring it to current standards and optimise its efficiency and life span. This includes:

- Burner conversions
- 'Cam & Cable' to digital air/fuel ratio control
- Economisers
- Water Level Controls
- Diagnostics
- Fuel handling equipment
- Variable speed control of motors
- Oxygen trim

## Complete Boiler House Services

Hamworthy Combustion can provide a comprehensive range of boiler house service and maintenance work, which includes:

- Boiler House Survey
- Acid Washing
- Refractory / Brickwork repairs and replacement
- NDT Testing and 5yr inspections
- Boiler Re-tubing
- Valve Overhauls
- PM5/60 installations
- Cleaning
- Pipework

## Spares

All of our Service and Commissioning engineers carry commonly used spares for Hamworthy Combustion products, they are also able to advise on recommended spares you should be keeping on site. Hamworthy Combustion is also able to identify and source boiler spares as well as parts for other manufacturers' burners.
